

Job description: CNC Machinist Setter/Operator

Location

Northampton

Salary/hourly rate

£9 - £14.50 per hour

Hours of work

13.00 - 23.30 Monday to Thursday

OR

07.00 - 15.30 Monday to Thursday

07.00 – 15.00 Friday

CNC Machinist Miller bias

The Opportunity

A precision manufacturer that continues to grow and invest is looking for an experienced CNC Machinist to set and run CNC machines. Programming experience would be an advantage and would be reflected in the rate. However, opportunities to advance are available and additional training on programming would be given to the right candidate.

Skills & Experience

We currently have positions available for experienced CNC Miller Setters up to 5 axis. You will be self-motivated able to run multiple machines, have a high attention to detail and the ability to communicate clearly to members of the team. You will have a minimum have 2 years' experience

- Read engineering drawings
- Setup and run your machine with limited supervision.
- Quality inspection skills to check and verify jobs
- Achieve targeted production based on job running times
- Adhere to all company policies and instructions

Recol Engineering Ltd has been trading successfully from our Northampton base for over 30 years. The business was established by Rhid Guntrip (our current MD) and has grown incrementally in that time to become regarded as one of the most respected sheet metal fabrication companies in Europe – by manufacturing high quality, precision sheet metalwork in stainless steel, aluminium and mild steel.
